SISD provides their students with the opportunity to advance in math beyond their enrolled grade level, through specific eligibility criteria for Math Acceleration. The acceleration process involves skipping classroom instruction for a grade level or course. Students must demonstrate mastery of the math standards above their current grade level and for which s/he has not received any formal classroom instruction.

### Entering 6th Grade

**Sharyland ISD Students:**

**Acceleration (Skip 6th Grade Math) Eligibility for Seventh Grade Math**

Student must meet **ALL** of the following criteria:

1. Masters Level Performance on Grade 5 Math STAAR test
2. Grade 5 Math Final Average ≥ 90%
3. Satisfactory Performance on Grade 6 SE Placement Exam

**New to District Students:**

**Acceleration (Skip 6th Grade Math) Eligibility for Seventh Grade Math**

Student must meet **ALL** of the following criteria:

1. Masters Level Performance on Grade 5 Math STAAR test or Achievement test/state assessment ≥ 90%*
2. Grade 5 Math Final Average ≥ 90%
3. Satisfactory Performance on Grade 6 SE Placement Exam

### Entering 7th Grade

**Sharyland ISD Students:**

**Acceleration (Skip 7th Grade Math) Eligibility for Eighth Grade Math**

Student must meet **ALL** of the following criteria:

1. Masters Level Performance on Grade 6 Math STAAR test
2. Grade 6 Math Final Average ≥ 90%
3. Satisfactory Performance on Grade 7 SE Placement Exam

**New to District Students:**

**Acceleration (Skip 7th Grade Math) Eligibility for Eighth Grade Math**

Student must meet **ALL** of the following criteria:

1. Masters Level Performance on Grade 6 Math STAAR test or Achievement test/state assessment ≥ 90%*
2. Grade 6 Math Final Average ≥ 90%
3. Satisfactory Performance on Grade 7 SE Placement Exam

### Test for Acceleration:

- As per district policy, students who prefer not to participate in the above criteria may opt to test out on a purchased assessment to be administered on specific dates offered by the Curriculum Office.

*Note – Students new to the district who did not take the STAAR or an achievement test will be given a TEKS-based assessment.*

The district reserves the right to cap enrollment in math acceleration coursework based on: teacher certification, student enrollment and campus schedule availability.
